

Product Description

---Yueqing Sanshe Semiconductor Factory

Three-Phase Bridge Rectifier(MDS100A1600V)

Created Date:2014-03-11

Posted Date : 2011-06-13
Expiry Date : 2011-07-13
Min. Order Quantity : Bulk
Price Term : FOB
Price : Negotiable
Payment Terms : T/T
Production Capacity : 32767 Piece(s) Per Month
Delivery Time : within 2 weeks after receiving payment
Packaging Details : Standard export cartons

Brief Product Description

Features:

- 1) Three-Phase Bridge Rectifier Electrical isolation between chips and substrate, 2,500V AC
- 2) International standard

Product Attributes

Place of Origin	Zhejiang China (Mainland)
Brand Name	WORWO
Model Number	MDS100A1600V
Type	Bridge Rectifier
Certification	ISO9001, CE

Detailed Product Description

Features: 1) Three-Phase Bridge Rectifier Electrical isolation between chips and substrate, 2,500V AC 2) International standard encapsulation 3) Full press-fit construction, superior temperature characteristics and power circulation capability 4) Air-cooling for all modules ranging from 25A to 130A 5) Simple assembly, easy to use and maintain 6) Small size, light weight 7) For use on: a) DC power for instruments b) Industrial heating controlling c) Various rectifying power supply d) Light change e) Non-touch switch f) Soft-starters for electric machines g) Static compensation of zero power h) Arc welders i) Frequency converters j) UPS power supply k) Charging and discharging of battery 8) Rated current ranging from 15A to 110A, peak voltage ranging from 200V to 2,000V are all available

Company Profile

Yueqing Sanshe Semiconductor Factory specializes in researching, developing, producing and marketing power semiconductor components.

Product Description

---Yueqing Sanshe Semiconductor Factory

Our company has powerful technical force, sound production equipment as well as first-rate testing equipment. We are engaged in manufacturing solid state relays, ZP series rectifiers, KP series thyristors, KK series fast thyristors, KS series bidirectional thyristors as well as power modules, such as silicon-controlled rectifier modules, and silicon rectifier modules.

All the products are stable in performance and reliable in quality. What's more, we have acquired ISO9001 quality system certificate and CE certificate. Our products are widely used to replace similar brand name products from abroad, which can help users save cost. They have been enjoying great popularity among the users.

We are willing to establish long-term business relationship with all customers on the basis of honesty, trustworthiness, exploitation and innovative entrepreneurship.
